How To Get Involved

As the new Executive Director of United 4 Children, I am honored for the opportunity to lead our work together to new heights so that more children can be safe, healthy and thriving. My vision for our organization is to be a driving force in our region by improving the quality of children's lives through developing our programs and delivering high-quality comprehensive services, expanding and growing our presence within our service areas, diversifying funding for stronger sustainability, progressing strategically, communicating purposefully, and building relationships with our internal and external stakeholders. I look forward to staying in touch with you and ask for your commitment in making children a priority.

Introducing Our New Leadership Team

We are pleased to introduce our new Leadership team. Each individual is an expert in their field and not only brings their talents but their unique perspectives to take United 4 Children to the next level. Feel free to welcome them by emailing them (listed below).

Now I Can See!

We were able to invite Delta Gamma Center for Children with Vision Impairments to our Early Childhood Learning Center to check the children's vision. One of our children, Kaicee, was referred to an eye doctor and found out she needed glasses. Now, she wears them with pride! She talks about how she can see things clearer than she could before! Kaicee has been impacted greatly. She seems more confident in her play and more active in the classroom. Because of your support, we were able to make an impact on Kaciee's life and were able to give her the ability to grow and flourish!

'Our Daycare's' Accreditation Journey

Tina Mosley owns 'Our Daycare' which has been in business for over 20 years. Tina has been a client of our Programs Achieving Quality (PAQ) since 2011. Despite her commitments to providing quality child care, taking the plunge to become an accredited provider was a scary thought for Tina. Tina thanks our PAQ program for providing her support and guidance along the way to earn her NAFCC (National Association of Family Child Care) accreditation. It is because of your support that we are able to bring quality to surrounding daycare's like Tina's to exceed basic state licensing requirements and be able to provide what matters most to children's development.
