Overview
United 4 Children, in collaboration with Beyond Housing and the Collective Impact Network, has established a kindergarten readiness program to provide educational enrichment for children within the Normandy Collaborative Schools area.

Program Goals

The overall goal of the 24:1 Early Childhood Learning Center is to provide children (ages 2 to 5 years old) within the Normandy Schools area with the necessary skills in order to meet the Normandy Schools kindergarten readiness scale requirements as well as the Missouri Early Learning and Kindergarten Standards.

The 24:1 Early Childhood Learning Center collaborates with Beyond Housing in order to help all children get ready for school in the Normandy community. Beyond Housing has partnered with other agencies in order to promote 5 ways to get children ready for school by age 5. The 5 by Age 5 initiatives include healthcare services, screening, early learning, parenting skills, and community support. The objectives of the 24:1 Early Childhood Learning Center support those initiatives. Our priorities are to establish strong parent relationships, provide focused math and literacy experiences, and develop the family's connections to needed direct special services in order to ensure all of the children are ready for the expectations of a school-age program.

Philosophy: All children are natural learners and need a warm, supportive environment in order to explore how the world works and meet their individual needs.

Goal: To ensure every child in the program has the necessary skills to be successful in kindergarten by:

- Utilizing research-based curriculum to address social, emotional, physical, language, and cognitive needs of children.
- Providing research-based early childhood literacy and math activities.
- Providing opportunities for children to explore and play in a highly enriching environment.
- Building positive social interactions between other children and adults.
- Building strong relationships with parents.
- Developing connections to needed direct special services to address other family needs.
- Providing on-going assessment of a child’s current development and needs.

Non-Discrimination Policy

The 24:1 Early Childhood Learning Center is committed to providing equal employment opportunity to applicants, employees, and clients regardless of race, color, sex, religion, age, national origin, disability, genetic information, political belief, sexual orientation, or veteran status.

Services will be provided without regard to protected category.
All staff, contractors, and volunteers of the agency shall adhere to this policy. Supervisory and management staff, in particular, shall assure that the intent as well as the stated requirements are implemented. The application of this policy is the individual responsibility of all staff.

If you require accommodations, contact Gail Wulff, Director for assistance. 314-383-3252.

State License and Regulations

Parents may access all state licensing compliance and inspection reports. These are maintained in the office along with a copy of the Missouri Department of Health and Senior Services license and State regulations regarding licensed childcare centers. Parents may request access to these files from the Director (or designee) at any time. Missouri Department of Health and Senior Services has all regulations posted online at https://health.mo.gov/safety/childcare/lawsregs.php

Center Director Responsibilities

Under the direction of the Program Development Officer, the Director is responsible for managing a developmentally appropriate curriculum, overseeing physical facilities, hiring/supervising staff, and building family relationships. A critical role is to ensure compliance with all local, state, and federal laws governing child care, both in regard to the physical environment and the staff, and manage the financial affairs of the childcare center.

Staffing

The program maintains a ratio of no more than 10 children to every 1 staff member at all times. There is one classroom at the center with two teachers present at all time. A maximum of 17 children are enrolled in the classroom for the morning and afternoon sessions. This is a mixed age room of children from 2 to 5 years old, with no more than 3 children under the age of 3. All classroom teachers have a Child Development Associate credential or higher and participate in a minimum of 19 clock hours of child-related professional development annually. All daily staff are currently certified in First Aid and pediatric CPR.

Calendar/Hours of Operation

The 24:1 Early Childhood Learning Center operates a 12 month program. There are two annual breaks in student attendance days – Winter Break (1 week) and Summer Break (2 weeks). See the annual calendar for specific dates.

Additionally, the 24:1 Early Childhood Center observes the following holidays: New Year’s Day (coincides with Winter Break), Martin Luther King Jr. Day, Memorial Day, Independence Day, Labor Day, Thanksgiving, and Christmas Day (coincides with Winter Break).

The 24:1 Early Childhood Learning Center will follow the Normandy Schools Collaborative schedule for inclement weather ONLY. We do not regularly follow the district’s calendar, but if Normandy Schools close for inclement weather, the 24:1 Early Childhood Learning Center will be closed. Please watch your local news program if inclement weather is predicted.

Admission Policies –

Eligibility

The program is open to all children ages 2 through 6 years of age living (or under the care of a grandparent or in-home registered provider) within the Normandy Schools area, who have NOT been enrolled in a licensed or license-exempt Normandy area childcare center within the 6 months prior to enrollment. **Priority is given to children ages 4 and 5 in order to provide them with the necessary skills before they enter kindergarten, and there are limited spaces for children under 3 years of age. 24:1 Early Childhood Learning Center does not exclude any child based on race, religion, national origin, economic status, sex, or disability.**

Enrollment

Enrollment takes place on an on-going basis as space becomes available. Parents must complete an enrollment packet including:
- Enrollment form with identifying information
- Emergency contact information (authorized adults to pick up your child)
- Proof of residency
- Authorization for medical treatment in case of accident/emergency
- Proof of appropriate immunizations (or exemption)
- Medical examination report
- Any individual special needs of the child – any accommodations your child might need

Each July, parents will need to indicate whether or not they would like to re-enroll their child for the upcoming session (August – July). Updated information will be required.

Before Your Child Begins

In order to help your child transition into our program, we require the parents and child to attend a 30-45 minute orientation before the first day of attendance. This is scheduled individually with the Director upon enrollment. During this orientation, you and your child will receive a tour. Your child will be given an opportunity to explore the different centers with a staff person guiding him or her. While your child continues to play and get to know his or her teacher, you will receive a full tour of the facility and review the drop-off/pick-up procedures and other policies.

In August, the Center hosts an annual Open House for families. The updated curriculum is presented along with a review of the policies and daily procedures. Parent input regarding the year's family engagement activities.

Tuition

This is a FREE program with NO tuition or fees charged to the families. The funding is received through United 4 Children in collaboration with Beyond Housing.

Attendance

Absences should be reported as soon as possible. Please call 314-383-3252 - leave a message if necessary. Regular attendance is necessary in order to achieve the program goals and objectives. If a child’s attendance is inconsistent or becomes a concern, a meeting will be scheduled between the Director and parents in order to determine how to address any difficulties with regular attendance in the program. Excessive absences will result in being discharged from the program. All cases will be handled on an individual basis.

Daily Arrival and Dismissal Procedures

Children will not be allowed into the program until 5 minutes before the starting time. (8:25am for the morning session and 12:55pm for the afternoon session.) An authorized adult must sign all children in daily upon arrival. The date, child’s name, time of arrival/dismissal, and responsible adult must be listed on the attendance sheet. Parents should verbally confirm that the teacher is aware of their child entering the classroom prior to leaving. Attendance sheets are located on the clipboard in each classroom.

An authorized adult must sign all children out on the attendance sheet at dismissal. Children will only be released to an adult on the authorized list provided by the parent. Picture identification will be required if the staff is unfamiliar with the adult. Parents need to inform anyone coming to get their child that proper identification will be required.

If an authorized adult does not arrive within 15 minutes of dismissal, the Director or designee will contact parents and emergency contacts by telephone. Arrangements must be made in order to pick the child up. If no contact has been made within one hour of dismissal, the Director or designee will contact appropriate authorities.

General Care

No child will be left unattended while at the program. All children must be supervised by at least one authorized adult for every 10 children (see staffing ratio section for further detail). Children will be engaged in
activities within the classroom or outside play area throughout the time they are in attendance at the program. In case of emergency, all regularly supervising adults are certified in First Aid procedures and pediatric CPR.

**Curriculum**

*Creative Curriculum®* is utilized in order to develop the activities at each learning center as well as larger group activities. Based on research of child development, the goal of the curriculum is to establish a positive learning environment focused around the children’s interests. We provide opportunities for purposeful play that will help your child build strong relationships with other children and adults. Parents will be invited into the classroom for activities, and you will be given information regularly about the events in the program.

*Creative Curriculum Framework*

Sample Daily Schedule – see schedule posted in your child’s classroom.

**Class Meeting**

During “Class Meeting” times, teachers lead the children in discussions about the day, including calendar, weather, and special events. This is a time when children share things that they have created in the various centers or from home. Social skills and listening skills are reinforced during this time period, and the children build relationships with each other, the teachers, and as a whole class community. The teachers include the children in making class decisions during this time regarding the operations of the classroom.
## Centers

During “Center Times” children are able to select activities arranged in various interest areas. The activities may be independent or teacher supervised/supported. All centers focus on building the children’s math and literacy skills within the activities arranged at the time. Each center has a certain number of children that can play in that area at a time. Children are able to select their own centers and will be encouraged to try different activities throughout the classroom. The activities in each interest area will change periodically in order to expose your child to a variety of skills and concepts. An example of the activities in each center is listed below.

Discipline and Guidance

The 24:1 Early Childhood Learning Center believes that children must experience trust and respect in order to build essential social and emotional skills. Teachers build relationships with each child in order to help them form a sense of community in the classroom.

To move children toward self-discipline, teachers create positive environments and support the children’s appropriate communication and interactions. Our goals include building positive social interactions by helping children develop a healthy self-esteem, learning to manage feelings and impulses, and strengthening their communication and problem-solving skills. We provide children with visual supports to help their identification and expression of their feelings and emotions.

Techniques used in the classroom to foster positive social interactions include:

- Establishing clear, simple, consistent rules and routines
- Modeling appropriate behavior for children
- Assisting children in identifying their emotions
- Assisting with interactions between children – assist in resolving any conflicts
- Fostering communication and negotiation skills in children
- Teaching appropriate self-regulation strategies to calm in stressful situations
- NO corporal punishment is allowed

Most children respond to such guidance, and develop the appropriate and necessary skills to deal with interpersonal situations. However, no single technique is successful with all children. If a child has difficulty, the Director and teachers will determine what additional supports can be put in place in order for the child to master social skills. Additional supports might include extra time, warning of changes in the schedule, visual prompts or schedules, sensory supports, calming breaks, extra individual time, or simple reinforcement systems.

If a child continues to struggle after additional supports are in place, the parents may be required to attend a meeting with the Director, teachers, and possibly consultants from Beyond Housing 5 by Age 5 partner agencies in order to develop an individualized behavior plan. Parents will be informed of the invited partners.

Every realistic effort and accommodation will be made to help the child overcome challenges and successfully participate in the group setting.

We reserve the right to determine the appropriateness of this classroom environment for each child in the program. Discharge from the program for inappropriate or aggressive behavior is a possibility. Each individual situation is taken to consideration, and family input is essential to this process. If inappropriate behavior persists, the Director might recommend alternative programs for the child in order to maintain the health and safety of all children in the program.

Assessments/Evaluations

The 24:1 Early Childhood Learning Center evaluates all children using the Ages and Stages Questionnaires, both the general Third Edition and Social – Emotional 2nd edition (ASQ-3 and ASQ-SE-2) twice a year (in the fall and spring). Parents will be asked to complete a questionnaire in order to provide information regarding the child’s development in both the home and school environments.

Additionally the Center utilizes a portfolio process to document the children’s growth and development. Individualized observational data is collected through typical classroom experiences. Observation helps teachers monitor learning using recognized developmental milestones. The teachers share this information about the children’s growth and development with parents and
families regularly. This information also allows the teachers to make changes within the classroom in order to address the children’s current needs.

Other individualized screening tools may be utilized if necessary in order to provide information regarding a child’s progress. Parents will be given written prior notification of other individualized screening tools to be used.

**Progress Reports**

Teachers will briefly engage parents on a daily basis at arrival and dismissal times. Information about the general well being of the child as well as any unusual behavior or incidents will be shared at this time. If a longer conference is required, the teacher will schedule a time that does not interfere with the classroom instruction.

Parents will receive monthly reports from the classroom teacher regarding their child’s engagement in various activities. Additionally, parents will be invited to two conferences each year with the teacher (and/or director) in order to discuss their child’s strengths as well as any areas of concern. Additional conferences may be requested by the parent or teacher/director in order to address questions or concerns at any time.

**Children’s Individual Files**

Individual files are maintained for each child. The office file includes the enrollment packet, accident/incident reports, screening results, and notes regarding any concerns. The classroom files include documentation of progress, samples of learning, as well as full screening questionnaires. Parents may have access to either the office or classroom files by asking the Director. A copy of any information or progress will only be released to the parent or with your written permission.

**Opportunities for Parent Input**

Parent input is sought in a variety of ways throughout the year. We ask parents to fill out surveys in December and June. Additionally, we will frequently ask for input during our family engagement activities. You are always welcome to share any concerns or suggestions for improvement with the Director. We want and need your input in order to meet your child’s needs.

**Classroom Visits/Volunteer Opportunities**

Parents are welcome to visit the classroom at any time and are encouraged to maintain regular communication regarding their child’s needs. There are opportunities for parents to volunteer at the 24:1 Early Childhood Learning Center with activities or classroom preparation for activities. Parents interested in volunteering should discuss the opportunity further with the Director.

**Outdoor Activity**

The children play outdoors daily as long as the weather permits. The following chart will be used in order to prevent children from being exposed to extreme wind chill or heat index. Children are supervised on the playground equipment and taught the safety guidelines for climbing and jumping off equipment. All children need to have closed-toed shoes in order to play safely on the playground equipment. Please dress your child appropriately for the weather. We play outdoors for a minimum of 30 minutes in each half-day session as the weather permits.
Meals/Snacks

One snack will be offered to all children daily during the half-day session. Children are not allowed to bring food from home into the classroom. Please ensure your child has eaten breakfast or lunch prior to attending school.

Sample Menu:

<td>● Banana</td>
<td>● Raisins</td>
</tr>
<tr>
<td></td>
<td>● Nutri-Grain bar</td>
<td>● Vanilla Wafers</td>
<td>● Animal Crackers</td>
</tr>
</tbody>
</table>

Supervision of the Restroom

Children under the age of three will be supervised and assisted in the restroom. Staff will require all children to wash their hands with soap and warm water after using the toilet. Bathrooms are located within the classroom, and children will be able to use the restroom independently whenever required throughout the program. Staff will monitor bathroom use and encourage all children to use the restroom at least once during the half-day session daily. The restroom doors do not lock in case of an emergency.

Medication

If a child requires medication during the hours of the program, the Director (or designee) will give the dosage as indicated by the parent. Parents MUST provide written permission indicating time, amount of dose, and for how long the medication is to be given. All medications (prescription or nonprescription) must be in the original containers and labeled with the child’s name, instructions for administration (including times and amounts of dosages). Parents must write this information on
nonprescription medications. Parents will be informed of the date and time the medications were
given. The Director will maintain records of all medications provided during the program times. All
medications are stored out of reach of children.

**Accident/Injury**

In the event of an accident or medical emergency, emergency personnel will be contacted by calling
911 if necessary. All staff responsible for the supervision of children are currently certified in First Aid
and pediatric CPR and will assess and respond to the accident/injury as trained. Parents (or
emergency contact) will be notified by the Director (or designee) to inform them of the incident
immediately after contacting emergency personnel (if needed). Parents will also receive a written
report of the accident/injury by the following school day.

**Health/Illness**

The health and safety of all the children in the program is the primary goal of the administration and
staff. All children must provide proof of completed age-appropriate immunizations (or exemption from
immunizations) prior to the first day of attendance. All children are required by the State of Missouri
to have a medical examination within 30 days of enrollment in a licensed childcare facility.

There may be times when your child is excluded from the program or needs to be picked up due to an
illness. Your child may be excluded from the program for the following. (Note: This is not an
all-inclusive list, but it covers most of the common illnesses.)

- Illness that prevents your child from participating comfortably in program activities.
- Illness that results in greater need for care than our staff can provide without compromising the
  health and safety of the other children in the program
- Illness that poses a risk of spread of harmful illness/disease to others
- Fever (greater than 100°F orally or 99°F under the arm) with behavioral changes or other
  symptoms (e.g. - sore throat, rash, vomiting, irritability, lethargy, constant crying, difficulty
  breathing)
- Diarrhea – 2 loose stools within a 24 hour period that are not associated with a change in diet.
- Vomiting more than once
- Severe coughing – if the child gets red or blue in the face or makes high-pitched croupy or
  whooping sounds after coughing
- Difficult or rapid breathing
- Yellowish skin or eyes
- Conjunctivitis (Pinkeye – with discharge) – until on antibiotics for 24 hours or release by a
  medical professional.
- Unusually dark, tea-colored urine
- Grey or white colored stool
- Unusual skin spots or rash – unless determined by medical professional that it is not a
  communicable disease
- Head Lice – until after treatment and all nits are removed
- Open skin conditions – All open sores, blisters, skin conditions must be able to covered by a
  bandage without seepage or drainage through the bandage – Parent may need to provide
  release from a medical professional stating that the condition is not contagious.

**Required Conditions for a child to return to program activities:**

- Fever free for a full 24 hours without the use of fever-reducing medications
- Free of vomiting or diarrhea symptoms for a full 24 hours
● A child that was excluded may return if they have been treated with an antibiotic for a full 24 hours, or with note from a medical professional stating they are no longer contagious.
● Free of open, oozing skin conditions unless a bandage without seepage or drainage through the bandage, and a medical professional provides a note stating that the condition is not contagious.
● Ability to participate comfortably in the usual programming, including outdoor play during the program hours, if a child becomes ill, the parents will be contacted by the Director (or designee). The ill child will be removed from the normal activities and made as comfortable as possible until the parent (or authorized adult) comes for them. Parents are expected to pick up their child within 1 hour of being contacted.

**Mandated Reporting of Suspected Abuse/Neglect**
All staff are mandated reporters for suspected child abuse or neglect. They are required by law to call the hotline if there is any indication that a child is in danger.

Anyone who suspects a child may be abused or neglected should call 1-800-392-3738 immediately. For more information regarding the guidelines for reporting, go to https://dss.mo.gov/cd/keeping-kids-safe/can.htm

**Immunizations**
In accordance with Section 210.003.7, RSMo., the parent or guardian of a child enrolled in or attending 24:1 Early Childhood Learning Center may request notice of whether there are any children enrolled at our facility with an immunization exemption on file. If you would like to request this information, please contact Gail Wulff and the information will be provided to you. Please note, the name or names of individual children are confidential and will not be released. Our response will be limited to whether or not there are children enrolled at our facility with an immunization exemption on file.
